1. Main Page
   - Show how search bar works
   - Enter into a restaurant (show only info)
2. Show registration pages (both < restaurant / costumer , bot do not register anyone, waste of time.)
   - Login of costumer
3. Go to a restaurant
   - Show reviews and so on.
   - Before make a reservation USE CHAT to ask a question (vegetarian?, vegan? idk)
      · Meanwhile, someone has to be in the chat and answer in real time.
   - Make a reservation
4. Show reservations (has to be 3 or 4) cancel one and edit something quickly of the last reservation.
5. Logout and login as a manager
   - show chats
   - Show the others functionalities quickly
   - Show waiter registration (no needed to register anyone)
6. Logout and login as a waiter
   - Show functionalities quickly
7. Logout and login as a admin
   - Show functionalities quickly
